

CEMETERY TRUSTEE MEETING

APRIL 9, 2007

PRESENT: Don Burke, Janet Brown. Rob Gordon was unable to be at meeting.

Meeting called to order @5:00pm.

The November 13, 2006 minutes were read and accepted. We had no meetings in December, January, February and March because of bad weather and no agenda.

Don Burke presented bill for removal of four large pine trees in Pine Grove Cemetery by Boisvert Tree Service for a sum of \$3500.00. Three of the large stumps were clipped at a cost of \$500.00. Bill was paid for by cy pres funds.

We will not be able to do Oil Mill Cemetery due to lack of funds. The road agent needs time to find money to do road work on River Road. May need to get or contact State Engineer to help redesign that road before we can rebuild the front wall of cemetery. We have purchased antique granite stone for \$8000.00 and stored at Andy Spielberger's yard.

Janet Brown has talked to an abutter of one of the cemeteries and he said he may consider leaving some land to cemetery. Janet made motion to have Chairman Burke to sit down and talk with owner about the possibilities of making this happen and to give owner all information to review. This motion made by Janet, seconded by Don.

We will vote on officers at May meeting.

The Mussey Cemetery off Upper Craney Hill Road, we need to reset stones and repair stone wall. This work will be done by inmates. Need to also loam and seed front of new stonewall at Sugar Hill Cemetery.

We are considering to use the granite we purchased for Oil Mill Cemetery to replace wall at Collins Cemetery that was destroyed by road work on Reservoir Drive. We need to replace missing section that abuts Reservoir Drive. We are not sure when Oil Mill Road will be redesigned because of lack of funds and our budget cut we feel it is prudent to use the granite that we own than to let it set around at Andy Spielberger's yard.

Meeting adjourned at 6:30pm

Respectfully submitted,

Janet Brown
Secretary
